**Speculative Grammar, Universal Grammar, and Philosophical Analysis of Language**

This volume brings together papers originally presented at a seminar series on Speculative Grammar, Universal Grammar, and Philosophical Analysis, held at the University of Bologna in 1984. The seminars aimed at considering various aspects of the interplay between linguistic theories on the one hand, and theories of meaning and logic on the other. The point of view was mainly historical, but a theoretical approach was also considered relevant. Theories of grammar and related topics were taken as...

Design Strategies in Architecture: An Approach to the Analysis of Form

Modern architecture has become extremely complex and its study has been made more difficult by changes in fashion and a proliferation of design modes. In this book, Geoffrey Baker develops a methodology for design analysis that reveals the underlying organisation of buildings. Part One explains the nature and role of architecture in a wide-ranging discussion extending from geometry to symbolism. Part Two demonstrates the analytical methodology by reference to cities and works by modern masters su...

Interpreting Epidemiologic Evidence : Strategies for Study Design & Analysis

Evaluating the strength or persuasiveness of epidemiologic evidence is inherently challenging, both for those new to the field and for experienced researchers. There are a myriad of potential biases to consider, but little guidance about how to assess the likely impact on study results. This book offers a strategy for assessing epidemiologic research findings, explicitly describing the goals and products of epidemiologic research in order to better evaluate its successes and limitations. The focus...
