To make sense of the world, we're always trying to place things in context, whether our environment is physical, cultural, or something else altogether. Now that we live among digital, always-networked products, apps, and places, context is more complicated than ever—starting with "where" and "who" we are. This practical, insightful book provides a powerful toolset to help information architects, UX professionals, and web and app designers understand and solve the many challenges of contextual ambiguity in the products and services they create. You'll discover not only how to design for a given context, but also how design participates in making context. Learn how people perceive context when touching and navigating digital environments; see how labels, relationships, and rules work as building blocks for context; find out how to make better sense of cross-channel, multi-device products or services; discover how language creates infrastructure in organizations, software, and the Internet of Things; learn models for figuring out the contextual angles of any user experience.

Understanding Context Environment Information Architecture

Related Books

Lester and Koehler have vastly revised and expanded this brand new edition of the first textbook geared towards undergraduate information studies to approach the field from a multidisciplinary perspective. The book's fourteen chapters begin with The Impact of Information in Society and Fundamental Concepts of Information; look at The Information Professions and The Impact of Information Cultures and Societies; and conclude with Information Ethics and Information Futures. Appropriate emphasis i...

Basics Interior Architecture 02: Context & Environment

Second in the popular Basics Interior Architecture series * Perfect for intermediate interior design and architecture students * Elegantly explores more than 100 international case studies Students of interior architecture and design were dazzled by the first book in the Basics Interior Architecture series, Form and Structure. Now authors Graeme Brooker and Sally Stone are back with Context and Environment, examining how elements both inside and outside a building can affect interior space. Thei...

Light in Engineering, Architecture and the Environment (Wit Transactions on the Built Environment)

The Wessex Institute of Technology has for years been convening conferences on sustainable architecture and planning, design in nature, heritage architecture and environmental health. With the growing importance of lighting in the creation of better, healthier environments, the enhancement of heritage architecture, and the recovery of urban areas, as well as new developments in more sustainable lighting, it became clear that a conference focusing on lighting issues would be useful. This book...

The Turn: Integration of Information Seeking and Retrieval in Context (The Information Retrieval Series)

The Turn analyzes the research of information seeking and retrieval (IS&R) and proposes a new direction of integrating research in these two areas: the fields should turn off their separate and narrow paths and construct a new avenue of research. An essential direction for this avenue is context as given in the subtitle Integration of Information Seeking and Retrieval in Context. Other essential themes in the book include: IS&R research models, frameworks and theories; search and works tasks ...
Eco-Architecture II: Harmonisation between Architecture and Nature (Wit Transactions on Ecology and the Environment)

This book contains papers presented at the Second International Conference on Harmonisation between Architecture and Nature, held in The Algarve, Portugal. The multi-disciplinary nature of Eco-Architecture is reflected in the contents, which includes topics on: Historical and philosophical aspects; Ecological and cultural sensitivity; Energy and building technologies; Alternative and renewable sources of energy; Design with nature; Design with climate, siting and orientation; Materials selection ...

This book contains most of the papers to be presented at the Third International Conference on Harmonisation Between Architecture and Nature, which is being held in A Corua, Spain, April 12-14, 2010. Eco-Architecture ought to be in harmony with nature, including its immediate environs. Decisions have to be taken on ecological grounds concerning locations, siting and orientation, as well as the well-informed choice of materials. Eco-Architecture makes every effort to minimize the use of energy ...

Pattern (Context Architecture)

As models and paradigms, patterns have been helping to orient architects since the Middle Ages. But patterns are also the basis of the history of ornament, an aesthetic phenomenon that links all times and cultures at a fundamental level. Ornament and hence pattern as well was abolished by the avant-garde in the first half of the twentieth century, but the notion of pattern has taken on new meaning and importance since the 1960s. Complexity research has ultimately shown that even highly comple...

Understanding Frank Lloyd Wright's Architecture (Dover Architecture)

"May be the best book on Wright ever written, with the exception of the master's own incomparable autobiography." New York Times Book Review. This insightful study explores the principles of Wright's architectural philosophy, ideals, and methods. Includes over 120 photos, plans, and illustrations of Robie House, Fallingwater, Taliesin, and other masterworks.

Understanding Architecture: An Introduction to Architecture and Architectural History

A comprehensive introduction to architecture and architectural history and exceptional in its approach, this book explores architecture as a current practice in relation to history and in relation to the wider context of cultures, conservation and the environment. This new edition brings in the new emphasis on sustainability, urbanism, urban regeneration and cultural identity, in order to take a holistic approach to the subject of architecture. Highly illustrated, this book enables the reader to ma...
